## Overview

The stunning 180 degree view of Arenal Lake, Volcano and Sunsets is only 1 of many features of this property. On beautifully landscaped grounds we find 3 homes (2 story with balcony each), 1 common building with kitchen and a large storage building including the laundry area. The property is suitable for large families or groups of friends to spend weekends and holidays at the lake, or use it for additional income as a B&B or vacation rental. The property is almost 1 acre of size with large parking areas and plenty of additional space for additional buildings, a pool and / or organic garden to grow healthy food. The property is located on the north-west side of Lake Arenal and only a few minutes from the main road surrounding the lake. The drive to the nearest larger town Tilaran takes less than 30 Minutes and a trip to Liberia (intl. airport, Walmart), or the nearest beach can be accomplished in less than 2 hours.
