Overview

This project is designed to offer spacious, functional and revolutionary apartments in the city Centre of Limassol. Great emphasis was given to the design of the building, the comfort of the interiors as well as the functionality of the layout. The project consists of 4 apartments, two 2-bedroom apartments and two 1-bedroom apartments. Each apartment has its own parking space as well as its own storage room. Top quality materials, both structural and decorative, will provide its residents with the anticipated quality of life. The wide space of the apartments, the special features, the roof garden and the big verandas give the comfort of a relaxing living space in the city Centre. All apartments have large balconies, ideal for enjoying the views. Photovoltaics will be installed for every apartment as well as for the common areas of the building. The apartments are fitted with high standard kitchens, thermal double-glazing windows, electric shutters for bedrooms and thermal insulation for the building. Moreover, double shielded exterior security doors will be fitted at the entrance of each flat. All apartments are equipped with smart systems. Mobile phone control electronic switches are fitted for the general lighting and controlling the hot water. Video door entry system at the main door of the building will also be fitted. It is located in the heart of Limassol Centre and only a few minutes away from the sea. It enjoys the benefits of a quiet and peaceful environment with easy access to all essential community amenities. Delivery - October 2024
