Overview

This fully renovated 4-sided brick ranch home in the Pepperell school district sits on a very quiet cul de sac street, great for a family or empty-nester. New paint, both inside and out, and new flooring throughout, brand new quartz countertops, soft close cabinets and drawers, including an island and a large pantry, flank this unusually large kitchen. The kitchen even has brand new appliances and a nook for an office desk! A TV room works perfectly in the large space included in the kitchen, with a dining area in the easily accessed adjoining room, or they can be reversed. The separate laundry room includes a brand new water heater and can be closed off from the kitchen. Large new deck with solar lights!
