Overview

First Time Buyers or those wanting a 1-level home. You must take a look at this Awesome 3 bedroom 2 bath home. Newly painted, newer flooring, newer appliances and much more. All the Rooms in this home are a great size!! The Master is oversized with a remodeled master bath and a beautiful walk in shower. The Hall bath has also been remodeled. The large backyard is great for a growing family and for that Handyman there is a concrete storage area under the house that may be made into a small shop. One of my favorite features is the covered porch on the Side of the house off the kitchen and perfect for grilling!! Take A look Today!!
