Overview

2 Story home in Bennet, NE on over half an acre, with tons of potential, a 4+ car garage/shop with mechanics pit / hoist, plus a 2nd separate shop that is set up to be a woodworker's dream (saw dust / ventilation system with plenty of power). The house has 3 bedrooms, 3 bathrooms, full kitchen, 1st floor laundry, a wood burning stove, elevator (you read right), and the primary has a 2nd story with vaulted ceilings! This property needs updating, but has insane potential for a mechanic, wood worker, or anyone who wants to run a business from home, or has lots of hobbies / toys. Don't wait on this one, let's get your appointment scheduled ASAP!
