Overview

This view property will not disappoint. Perfect wood window placement throughout takes in the surrounding mountain and valley views. Open floor plan w/ formal/informal dining and living, creates ample spaces for entertaining. Vaulted living room w/ slate tile flooring and a corner woodburning fireplace. Roomy kitchen w/ plenty of storage, granite counters and slider access to the large outdoor deck and integrated paneled Thermador refrigerator. Primary bedroom on the main floor is situated perfectly to take in the city views from the private deck. It also has walk-in closet, soaking tub and separate tile shower. One other bedroom and full bathroom located on the main floor. Downstairs is perfect for overflow guests, w/ its own living room, full bath, bedroom and an office space. Each level has its own 2 car attached garage. Mature, easy-care landscaping on this large lot w/ great privacy provided from the city owned lot below, which gives a rural atmosphere to the back yard while being close to town.
