Overview

This MOVE IN READY 3 bedroom, 2 bathroom home has been lovingly maintained since its construction in 2008. There is so much character and charm, starting with the covered front porch. As you enter the front door, you will immediately feel welcome. There is a breakfast nook off the kitchen towards the front of the house which features a beautiful natural wood ceiling. The kitchen is well-equipped, has plenty of cabinets and prep space and is open to the second dining area and living room. The stone fireplace is a great accent that makes the living room feel very comfortable and inviting. Off the living room is a sliding door that opens to a large deck (with composite decking) with peaceful views of the surrounding fields. On the opposite side of the home, you will find a primary bedroom with a private full bathroom, two additional bedrooms and a second full bathroom. The laundry room is conveniently located at the end of the home and has lots of storage. The attached two-car garage has plenty of space for a workshop or additional storage. The basement is partially finished and was previously used as additional living space. The home has a whole house generator which was recently installed. Taxes shown do not include any rebates and currently includes 178.30 acres. The home is located on a surveyed 1.8 acre lot. Call to schedule your showing today.
