Overview

This is a great home! This cozy 1 1/2 story home is a great starter home or perhaps a downsizing home. With 2 bedrooms on the main and one in the upper level you have options to make it your own. The living room with the adjoining dining room makes for the perfect entertaining space along with the large deck just off the dining room and a huge yard for all your needs. Perfect for games to gardening! The one car garage joins the home with an amazing breeze way which is the perfect place for rainy day coffee and reading or games with family. This is a must see.
