Overview

This spacious townhome offers over 3,000 square feet of livable space, including a professionally finished basement. It features 3 bedrooms, 1 loft, 1 den and 3 full baths and 1 half bath, a two-story great room, and is situated on a premium corner lot in a cul-de-sac, providing a private entrance. The first floor includes a master suite with a luxury bath, a convenient den that can be used as a fourth bedroom, and a laundry room. The open-concept design boasts 9-foot ceilings, upgraded oak hardwood floors throughout most of the first floor. The home also features large windows, recessed lighting, custom light fixtures, and ceiling fans. Brand new carpet first and second floor. The backyard is impressive with a large green space, and the home is ENERGY STAR certified. The kitchen is stunning with granite countertops, a custom backsplash, 42 cabinets, a vent-out option, a pantry, and stainless steel appliances, including a range/stove and dishwasher replaced in June 2020. The finished basement is expansive, with a French door and side stair entrance, pre-wired theater surround, and an additional full custom bath. A radon mitigation system was installed in November 2019. The location is ideal, with easy access to Whole Foods, shopping, and a nearby forest preserve. It is also in the Naperville 204 school district and offers a quick commute to the Route 59 Metra

station.
