Overview

Discover one of the most stunning homes in the coveted Eastmark community. This exquisite Maracay Homes model, built in 2013, exudes elegance and modern luxury. Nestled between two single-story former models and situated across from a serene open park, this home boasts unparalleled privacy with no direct rear neighbors. As the first owner since 2017, meticulous enhancements have been made, including the installation of an H2O Concepts Whole Home Water Treatment System, window shutters, and a saltwater chlorinating system for the pool. The spacious garage is optimized with four 4'x8'x2' Safe Racks, providing ample storage. See More... Designed with nearly every upgrade imaginable, this home features an extended patio for outdoor living, extended kitchen and laundry cabinetry for added convenience, and sophisticated wood and iron stair and balcony rails. Tiled accent walls throughout the home add a touch of artistic flair, while the butler's pantry and epoxied garage floors enhance functionality and style. The guest/in-law suite is a private retreat, complete with tile flooring, a walk-in shower, stacked washer and dryer, and a fully equipped kitchenette featuring cabinetry, a sink, disposal, microwave, dishwasher, and mini refrigerator. The suite also includes shuttered windows, a generous walk-in closet, and a TV, making it perfect for extended family or guests.
