## Overview

Searching for a mid-century modern vibe? This stunning split level nestled on private, wooded lot in the sought after Wisteria Ways neighborhood blends modern luxury with rustic charm. Flooded with sunlight, the open living space features soaring ceilings, built-in bookshelves, a gorgeous fireplace and large windows showcasing the natural beauty of the grounds. The chic, updated kitchen flows to a vaulted dining room with a view to the wraparound deck for effortless entertaining. Two spacious bedrooms on this level include a primary with luxurious new bath; the new guest bath is just as impressive! A few steps down you will find two more bedroom options, also ideal office or play space; another updated full bath; laundry with soaking sink and ample storage in the mudroom. Freshly painted throughout with refinished hardwood floors and a list of updates including a new roof, this home is turnkey! A peaceful retreat minutes to schools, parks, shops, restaurants, the train and major routes!
