Overview

A Great Find in South Abilene's Chimney Rock Area! Located on a Large Corner Lot, this 1,584 SF home has 3 bedrooms, 2 bathrooms, and a 2 car garage with enough room for a designated workspace. There is also an additional room off of the kitchen that would serve well as a formal dining room, second living area, den, or office space option. The eat in kitchen has beautiful tile counters, tile floors, and is flooded with natural light. An open living room is accented with a brick, wood burning fireplace for cool evenings, and has convenient French Doors to the covered patio on those perfect weather days. Sleep tight in the large primary bedroom, which is lined with rich wood look tile flooring and is ensuite. The remaining 2 bedrooms are located in the main hall, close to the 2nd bathroom. The huge backyard is complimented with 2 sitting areas, mature trees, and a wooden privacy fence. A great place to relax, play and entertain! Great House, Great Yard, Great Location!
