Overview

Located on two city lots you will find this 3 bed, 1 bath home. Once inside a large front entry will greet you. There is plenty of room for a bench and/or storage system. This leads to a large living room saturated with natural lighting. Many of the home's windows have been updated, along with the furnace, water heater, and electric. The bedrooms and bathroom are located upstairs, leaving the main level open for family and friends. Outside the yard is spacious. There was an area for a garden and with a little work you could grow your own vegetables again. A one car garage is accessible via the alley behind the home. With the apple blossom trail and the Iron River just 0.3 miles from the front door, adventure is waiting for you.
