## Overview

Better than new construction! What can that possibly mean? Freshly paved RV parking behind iron gates, upgraded fixtures in every room, a completely finished garage with lighting installed in the attic, every square foot of this home meticulously cared for in every aspect. The moment you walk in the front door, you immediately feel as if you've come home to your place of comfort. Plush carpeting, granite counters throughout, a breathtakingly beautiful kitchen ready for any size gathering. A backyard framed by a solid block wall on the south side, ready to go with a drip system already installed in the flowerbeds, complete with stunning gazebo for evenings outside. The solar system on the home completely covers all usage and has never resulted in a true-up bill, ensuring year-round comfort. Not one, but FOUR community parks all within walking distance. Truly too much to list, the only way to appreciate this home to the fullest is to see it yourself! Book your tour before it's too late.
