Overview

Back on the market no fault of the seller. The home features 5 bedroom in a great location with plenty of space and a park right across the street. This home has had several updates to include the upstairs area with recent paint, new flooring, updated lighting and updated bathroom, new flooring in the laundry room, new hot water tank. The main level features 3 bedrooms and a recently updated walk in shower. The upper level gives you an office space, two bedrooms and a loft storage area. The home exterior has maintenance free siding, nice size fenced backyard with storage shed. The kitchen has loads of cabinets for storage. Laundry room is on the main level along with a dining room. This home could be the one call the listing agent for a showing.
