Overview

COME WITNESS COUNTRY LIVING AT ITS FINEST! This Cape Cod home features 4 bedrooms and 4 baths in the North Knox area with almost 5 acres. The home has been newly painted throughout, and with new laminate flooring on the main level. The kitchen boasts concrete counter tops, beautiful cabinetry, gas range, walk in pantry with beautiful wooden sliding door, dishwasher, and refrigerator. The dining room/family room is off the kitchen with gas log fireplace that looks into the living room. On the main level there is a master bedroom, office, 2 full baths, laundry and wonderful mud/storage room with room for extra appliances. This room was previously used to prepare food for a catering business, but would also be great for your canning needs. The upstairs bedrooms are in a split fashion, each with their own bath, one with dual sinks, nice tub and shower and the other with shower only. One of the large bedrooms on the upper level has extra sitting room. Outside the kitchen there is a nice deck that looks out into the backyard with playset (that is included), and a raised garden area with blueberries and strawberries. A newly constructed storm shelter has been installed for those stormy Indiana nights and also leaf guard on the guttering so no more cleaning the gutters! Tour this home with so many amenities too numerous to mention.
