Overview

Upgraded and enhanced in 2022, this beautifully remodeled, one level home is exactly what you've been waiting for! Set back off the street, the open floor plan is complimented by striking wood floors, high ceilings and oversized picture windows. A dual sided fireplace gently divides the Great room, and the adjacent dining room is the perfect spot to enjoy a meal. Functionality meets design in the gourmet kitchen, where Caesarstone quartz countertops, shaker cabinets and stainless steel appliances create a sleek, yet elegant atmosphere. French Doors provide access to the inviting backyard where the covered patio with fire pit overlooks a large grassy lawn. The bedroom wing includes a spacious Primary Suite, which enjoys a luxurious, remodeled bathroom and walk-in closet. At the end of the hall, the fourth bedroom is currently being used as a bonus Family Room, as it is oversized and opens to the backyard. Move-in ready is an understatement... a newly renovated garage, fresh paint inside and out, air conditioning and a state-of-the-art security system with seven cameras and comprehensive window and door sensors are just a few of the amenities. Located in the desirable Mira Catalina area, residents enjoy close proximity to elementary and middle schools, as well as UCLA's South Bay campus and convenient freeway access.
