Overview

That country home feeling but only minutes from the heart of Osage Beach. Everyone loves living off of D road and this is the ultimate house to do it in! 3 acres of very gentle ground and a beautiful, nearly 6, 000 square foot home all conveniently located in School of the Osage school district. Sit on the covered front or back porch and enjoy this setting. The home also has a large metal building with concrete floors that is great for boats, cars, an RV or just storage. So many unique features: office/den with built-in book shelves, formal dining room with crown molding, enormous kitchen with plenty of cabinets for the largest of families, 3 car garage, storage galore, a lower level bar/game area and even a movie room! This home constructed by Thomas Construction has 5 bedrooms and another room above the garage that could serve as a 6th bedroom. The kitchen with custom oak cabinetry, solid surface counters and a breakfast nook has been the focal point for so many holiday buffets and celebrations. The entire setting is spectacular but the yard is just amazing. An area off of the back porch has been fenced and even has an above ground pool!
