Overview

Its not every day that you have the opportunity to purchase a beautiful custom home on 5 acres, overlooking the foothills and some of the most beautiful land in the upstate! Imagine enjoying your coffee sitting on the porch watching the fog rise over the mountain, or spending the evening in the hot tub admiring the leaves as they change in the fall. This 5 bedroom, 3 bath home was built only 2 years ago, leaving many of the builder and component warranties in place (available on request). The main living area is an open kitchen/dining/living room with floor to ceiling windows bringing in natural light and looking out towards Cliffs Valley and beyond. The main level also includes the master suite along with a secondary bedroom and full second bath. A game trail runs along the backside of the property, which has afforded the owners the opportunity to see a lot of wildlife wander past the master bedroom windows! Upstairs is a large loft open to the lower living room. Off of the loft are 3 bedrooms and a full shared bath, along with some storage and utility closets. Dont miss the trail on the far-left side of the driveway that leads up to the overlook shelter! Call to schedule a private showing today.
