Back on market at no fault of seller. SHOW STOPPER! From the moment you pull into the driveway, its all gorgeous! The front entryway welcomes you with a beautiful staircase and takes you right into the open floor plan living space with tons of beautiful natural light, gorgeous flooring and a perfect fireplace. The entry to the kitchen is encased in brick and a wood beam. All the touches in the kitchen are great.....Stainless appliances, perfect backsplash, large island and there is a butlers pantry with an adjacent closed pantry. Large laundry with storage, and a sink. Primary suite is spa like and has an even better primary bath attached with dual sinks, a beautiful tiled shower, stand alone bathtub, a vanity area and walk in closet. Bonus space upstairs, also a balcony overlooking the neighborhood. Outside there is landscaping, a great covered patio with an inground pool, an outdoor fireplace, an outdoor kitchen, and a mosquito misting system. The pool has a spa and a waterfall!
