The brick columns and electric gate opens to a beautiful 5 Bedroom home on 92 acres, fenced and cross fenced. Plus, 50x40 shop with high ceiling and two oversized roll up doors plus heat and air even a full bath with walk-in shower. You could even have your own basketball court in the shop. Shop area has RV pad and hook-up. The 46x20 heated pool, is fenced with 26x23 covered patio and additional patio space with 19x20 pergola. Covered patio has large screen TV and some might say an outdoor kitchen including a pizza oven. Patio also contains a 14x10 in-ground storm shelter. No reason for anyone to come in the home dirty with showers in the shop and pool dressing room or for dirty clothes to go through the home with the laundry/mud room being the first room inside the garage door with almost new LG Washer and Dryer. Inside the home are many extras including built-in book shelves and a large walk-in lockable closet. The Den has a vaulted tongue and groove ceiling with beams. Relax in the Master tub with 20 jets. Want an ATV trail or a tree swing here you go! Even a place for that stocked fish pond you have been wanting! Electricity goes to three stall barn (32x30) for animals or another play area for when you want the spouse out of the house.
