Overview

Welcome to this 4 bedroom, 2 full bathroom home that boasts over 1700 sqft, fireplace in the living room, a master suite on the 2nd floor, and a large kitchen with lots of cabinet space. Set in a quiet neighborhood; you're close to downtown, shopping, and all highways. Waiting for your finishing touches! This fixer-upper has tackled major updates with a new roof and gutters installed in 2024, vinyl windows, a newer high-efficiency furnace, and a tankless water heater. While the heavy lifting is done, with a little TLC, the home offers plenty of opportunities to personalize the interior and build equity with your own finishing touches; calling all investors and home owners!
