## Overview

Welcome to the largest floor plan in the highly sought-after Woodlands of Darien. This Single Level Townhome features a first floor entry foyer and attached garage with over 2300SQFT on the upper level. Flooded with natural light and a tranquil wooded landscape. This meticulously maintained home features 3 spacious bedrooms, 2 full bathrooms, and ample storage throughout, including professionally installed overhead garage shelving for even more storage options. The large master bathroom offers a walk-in closet, a luxurious soaker tub, and a separate shower, and a dedicated hot water tank. Walk in laundry room includes side by side washer and dryer and additional storage space. The balcony is the perfect place to unwind and offers beautiful views of the mature trees. Two dedicated parking spots: a private driveway and a garage, with additional guest parking conveniently available. ChairLift ready for easy access to second level.
