Overview

Over 3100sq ft of total living space in this North Naperville gem. 4 bed, 3 bath in popular Longwood subdivision. Light and bright decor with hardwood floors. Updated kitchen and baths too. A cozy covered front porch welcomes your guests. This home offers a large open living and dining room for those more formal occasions. There is a spacious updated kitchen with granite counters and dinette space. Upstairs features a large master suite with hardwood floors and an adjoining sitting area and private, updated master bath too. Down the hall are 3 more good-sized bedrooms all with hardwood floors. There is a large, updated dual access guest bath as well. The lower level features a large family room with a stone fireplace as its focal point. Down the hall you will find a big playroom/5th BR which could be used as a home office too. Plus another full bath. A bright, heated sunroom offers direct access to the deck and backyard. A few steps down leads to a big exercise room and laundry/storage room too. Large, fenced yard with mature trees and perennial flower beds. Plenty of storage space. Well maintained inside and out. Newer roof, HVAC and more. Love where you live. Longwood is a subdivision of nice homes near schools, parks, restaurants and more within 1 mile of Metra and I88. If you want plenty of space in a North Naperville location - this is it!
