Overview

MLS# 20719160 - Built by Stonefield Homes - December completion! ~ Modern elegance meets thoughtful design in this stunning Cayman floor plan. This Energy Star certified home, situated on a corner lot, offers 2,129 sq. ft. of beautifully crafted living space with 4 bedrooms and 3 full bathrooms. The grand 11-foot ceiling in the foyer greets you, leading into an open-concept living area perfect for everyday living and entertaining. The gourmet kitchen, with quartz countertops and premium appliances, flows seamlessly into the great room and dining area. A 50-inch electric fireplace adds warmth and sophistication to the great room, making it the heart of the home. Wood flooring throughout the main living areas adds both beauty and durability. Throughout the home, 8' doors enhance the sense of space and luxury. The owners suite is a private sanctuary, featuring a tray ceiling, two spacious walk-in closets, and a spa-like bathroom with upgraded black Delta plumbing fixtures and so much more
