Overview

Being Sold AS-IS. Large lot bordering the Famous Red Bay Bird Sanctuary. Located in the center of High Island, TX. There is currently an old wood structure on the property, you can not salvage it. There is a septic tank but there's no way to know if it still works or not. The plat map makes it look like the property is landlocked but the driveway going into the property has been shared by this property and the neighbors property since the beginning of time. This lot has many possible uses. Perfect place to park an RV for a weekend get away. Seller has priced this lot to sell.
