Overview

OWN A PIECE OF MAYO'S HISTORY IN A 4BR/2BA HOME ON 5+ AC FOR ONLY \$270, 000! If you're ready to step back into early 19th century, get ready for a ride!! This heart pine home was built by the Methodist Church back in the early 1900s. The history of this home is amazing and should be appreciated. It rests perfectly on a hill surrounded by mature hammock trees. The front porch offers plenty of space for rocking chairs to enjoy sunsets, while the back porch is screened in and faces east to enjoy the sunrise. Sit on either porch and enjoy all the Florida wildlife. After coming in from the back porch, enter the mudroom/laundry. The kitchen is wide open with A LOT of beautiful solid cherry cabinets which opens into the gorgeous dining room. Also on the ground floor are the family w fireplace and living room. Carpet was added to bring the home to a more modern state. Take the heart pine stairs up to the 4 bedrooms and additional bathroom. Each of the bedrooms holds the antique swivel window above the door to allow the warm air to escape. Outside are 2 pumps, wood working shed, 2 additional storage sheds in a picturesque setting right out of a Southern Living magazine. Surrounding the home is landscaping that needs some TLC but can be brought back into its glory days along with the extensive azaleas. Can sell with or without furniture as furniture is negotiable.
