Overview

One or more photo(s) has been virtually staged. Imagine if the only property behind you was 700 acres of nature trails and your only backyard neighbors were deer and the other beautiful creatures that call Fort Cooper State Park their home. Now imagine sitting on your enclosed lanai and all this beautiful nature being your backdrop. You don't have to imagine because that exactly the case for this home! In addition to that, this wonderful location is also just a couple of blocks from the Withlacoochee Trail, which is 47 miles of a paved walking and biking trail that meanders through 3 counties. Inverness is a favorite stopping point on that trail to get a drink or snack, or just take a minute to rest by the lake. If you want to head downtown for shopping or dining, you can get there via the trail in about 10 minutes by bike or a 6 minute drive by car. Once you're inside, you will enjoy a home that has been lovingly updated. The split floor plan is ideal for privacy. An inside laundry makes the task slightly more tolerable! There's plenty of room for both a dining and living room area, and of course there's the lanai that over looks the open back yard and the state park beyond the fence.
