Overview

Well the season has changed for the sweet couple who lived and loved so many years is this home. It's time for the next generation of home owners to pour their love into this very well maintained two (possibly 3) bedroom bath in a half home with a full basement and nice yard. Some details of this home held under a brand new roof are this: main floor has a large living room with gas fireplace (and is believed to have hard wood floors under), 2 similar size bedrooms with hardwood floors and full bath in between, very large eat in kitchen with nice cabinetry and appliances. Vinyl replacement windows also on the main floor. The basement has a family room, laundry, and lots of storage and has extensive waterproofing done (\$10, 000 worth by Baker plumbing) and has been dry every since. There is a 3 season porch off the kitchen with a small fenced in area the previous owner used to watch his hummingbirds. There is an attached 1 car garage and carport. With central air, forced air heat and move in ready I'm sure the perfect buyer is just waiting.
