Overview

How about 18.41 acres of fairly level land in the Garfield area? What could you do with 18+ acres of large mature hardwood trees and a seasonal creek to boot? The house is brick with a metal roof and needs some renovation and there is a detached garage for a workshop or storing your toys. Come to the country, and have room to grow in Garfield! Public county water is near the first driveway, and a water spring is near the house!
