Overview

This stunning home is truly a masterpiece, thoughtfully designed for both beauty and function, and is sure to appeal to the most discerning buyer. The exquisite craftsmanship and attention to detail in this custom built home provides the perfect backdrop whether you're in for a quiet evening or a night of entertaining. It begins with the exterior- the home is set back from the road and surrounded a beautiful display of mature plantings accented by a stone walkway. Inside, the first floor features an office, living room, formal dining room, half bath, gorgeous kitchen with dining area, granite counters and stainless appliances, and a large family room complete with vaulted ceiling and floor to ceiling gas fireplace. Second floor features all 4 bedrooms, three full baths, and laundry room. Both the main bedroom and second bedroom have private baths. Central air, propane heat, full basement and three-car garage add to the long list of amenities.
