Overview

36 acre private retreat on a hilltop that you have to see to appreciate how beautiful it is. Entry to property is via automatic gate followed by an extended driveway to the structures. The home is rock on all sides and has large covered patios on both the front and back of the house. The main floor has an open floor plan and includes the living room, dinning, kitchen, utility room, powder room and master suite. The kitchen has granite countertops, stainless steel appliances and wood cabinets with glass inlay. Master suite has ample space and french doors leading to the back patio. Master bath has double vanity, large walk-in shower and sitting area. Second floor has two bedrooms with a separate full bath and space for a sitting area or work space. All interior doors have been upgraded to solid core and a custom iron front door. Garage is oversized with large automatic doors and two large closets with built-in shelves. Second story of garage is framed for a loft and accessed by the deck on back of the structure. There are additional buildings that could be converted to a workshop, chicken coop or extra storage. Enjoy viewing wildlife and nature from the patio of this beautiful secluded property. Expand and build to your hearts desire and there is no HOA. Recent improvements include New Water Well drilled May 2024, also a water softener and new carpet 2024. Two HVAC systems replaced, metal roof and exterior paint 2023.
