Overview

Have you been looking for a move in ready house ON Jordan Lake? With a brand new furnace, air-conditioner and hot water heater all your main utilities have been updated, making this home all ready for you to spend your days at the lake. This home also has all new vinyl plank throughout, new light fixtures and all furniture may be included with your purchase. The beech house includes 2 bedrooms, 2 full bathrooms, and what we like to call the bunk house. The bunk house has the washer and dryer in it and has plenty of space to be converted into additional living space. The back deck overlooks the lake is completed with trex boards and is such a beautiful place to spend eating dinner, lounging or playing games! We will miss driving our boat to buddies on the lake to eat, drink and play!
