## Overview

Looking for a private retreat? Look no further! This 273 acre parcel is it! Did I mention it has its own private pond/lake? South side and the majority of the west property adjoins US National Forest land! The cabin is a two-bedroom, one bath cabin. First floor hosts an open concept living area to include: kitchen, dining, and living room. Kitchen does have a wood burning stove that heats the cabin. There is a first floor bedroom, and first floor bathroom. Upstairs is the second bedroom as an open loft system. Cabin was built in 1988 and has lots of character. Cabin is powered with solar/generator power. There is power available at the forest service road. There are two outbuildings to this property. First is a large pole building with a nice size workshop. Second is a wood storage building with additional storage. There are trails throughout the property to enjoy the big quiet. There is a large pond/lake on the property. You can canoe, kayak, paddle board, to enjoy the wildlife. Don't let this parcel pass you by. Call to schedule an appointment today!
