## Overview

56 Creighton is an exciting transformation of a 19th century post and beam grain storage facility into 3 meticulously designed and carefully crafted living units. 56B is a 3-4 BR unit that features 11 wood-paneled ceilings, polished concrete floors, and heavy old-growth timbers, all bathed in natural light by 10' tall windows. The customized kitchen features stone counters from Vermont, European cabinets, and Thermador appliances. There are two private patios, one on the 1st floor and an expansive oasis on the 3rd floor equipped with TV hookup and space for a hot/cold tub. Serving this area is a kitchenette in the head house that is perfect for guest, office, or gym space. There is ample parking space, including two deeded. Comfort is provided by radiant heat throughout. Additional features are common green space, a custom solar carport, EV hookup, and 2nd floor laundry. Steps to Porter and Davis Square shops and transit. A truly elevated living experience. Developed by MacCoCo.
