Overview

Quality and character define this house. A stone wall reminiscent of a English county estate protects it from the road. It is a graceful classic colonial with many architectural features: decorative brick work, deep rafters, Wyatt windows, and a portico with six columns. The first-floor main rooms have wainscoting, moldings, surround sound, and a gas fireplace in the front to back living room. The dining room has French doors leading to a screen porch. The sunny kitchen with ample storage space accommodates cooks and helpers. The second floor has a primary bedroom suite, 3 bedrooms and a family bath. The lower level with an exterior entrance is complete with playroom/exercise space, and a large storage area. It is steps from the 2.7-mile Cochituate Aqueduct Trail that runs through parts of Waban. Come, make this your home.
