Overview

Welcome to the Caden plan. Currently under construction, projected to be complete December 2024. As you walk in, the open sight lines leading to the back of the home show off the elongated windows with a view of your low maintenance yard. The family room, dining and kitchen all harmonize with multiple pathways to move through out the day. The first floor is complete with a private 5th bedroom. This Caden plan features 4 additional bedrooms on the 2nd floor. The owners retreat is nestled in its own private wing of the home. The owners retreat is complimented by its high end finishes in the owners bath with dual quartz counter sinks, a spacious tile surround drop-in tub, and spacious walk in closet. Come see what makes the Caden so special!
