Overview

Spectacular opportunity to own a very nice tract of land near the Red River Gorge and Natural Bridge State Park. This 10 acre boundary currently has a pre-fab cabin installed on a block foundation. The site has a new septic system, water meter and electric hookup, but the interior of the cabin has a couple of rooms framed up, but is mostly unfinished, allowing you to use your imagination to create the ideal space. There are many other potential cabin sites on the property and all without the frustration of dealing with restrictions or zoning regulations. This property could be used as a primary residence or weekend getaway, but there are several rental cabins next door to the property and several cabin developments within a few miles, making this a prime location if you've been thinking about breaking into the fast growing nightly rental market, Amazing properties like this do not hit the open market very often. Call today.
