Overview

This historic Kenneth Smith home that was originally built in the late 1800's and has now been remodeled into a beautiful home by Tamara Day and Open Door Builders. As you have seen in the photos this home has retained it's historic stone appearance and gained a facelift with an added 3 car garage. From the time you enter the front door, you are transported across time to a home that now boasts all the modern conveniences that you expect in upper bracket homes. From the decorating touches of Tamara Day to the Viking 8 burner range you will be amazed by the transformation. You will want to check out the gorgeous views from the Breakfast room, kitchen and the primary bedroom. The basement finish is still underway and the buyer can help decide the final product that fits their needs. The basement offers a large walkout patio that could easily be screened in and what could be the coolest potential wine cellar you have ever seen. This is truly a once in a lifetime opportunity to own a piece of American Golf history in the heart of Shawnee.
