Overview

Welcome to this beautifully updated home in a highly sought-after location, just moments from major employers. The property features a brand-new roof, installed less than a year ago, and a nearly new HVAC system, less than two years old. Enjoy peace of mind with an updated electrical panel and fresh upgrades throughout. No projects to do! The spacious, open floorplan seamlessly connects the family room, dining area, and kitchen. The large family room boasts a vaulted ceiling, a built-in bookcase, and a charming wood-burning fireplace (with a gas starter) clad in stylish shiplap and stone veneer. Recent updates include NEW luxury vinyl plank flooring in the family and dining rooms, new carpet in all bedrooms, and fresh interior paint throughout. The modern kitchen was updated less than 5 years ago with new cabinets, countertops, and a large farmhouse sink. The stylish kitchen features two-tone cabinet colors (white and blue/gray), large pantry cabinets on either side of the refrigerator, and a built-in desk. Each bedroom offers generous walk-in closets, and the master suite features a private ensuite bathroom. Both bathrooms have shiplap accent walls above the vanities. Wood-like blinds in all windows. Step outside to the expansive backyard, perfect for relaxation and entertaining, complete with a patio and two large pecan trees. Located directly across

from a spacious park and baseball field, this home offers both convenience and leisure.
