Overview

Rare opportunity to own a one owner brick home in York Township! There is an addition to this home which is wheelchair accessible through a separate front entrance and the back door to a large suite with a full bathroom. The space was used as a 1st floor master, but could also be used as a large office or In-Law Suite. An elevator /lift is also available to have access to the basement where there is an additional shower, a wet bar and a work room. Hardwood floors are under all of the carpets except in the addition. The bright and sunny backyard with southern exposure is large and inviting. There is an extra large 2 car garage with a work area and extra storage. A gardening shed is in the back of the garage. A/C and furnace are newer. Here is your chance to buy in this highly desirable neighborhood in Lombard near schools, shopping, restaurants and so much more! SOLD AS IS.
