## Overview

Dont miss out on this amazing four bedroom, two bath home with a two car garage. It also provides incredible energy savings from solar panels installed on the roof for effective exposure to the sun. The sellers have only had to pay the minimum \$30 charge for service and easily built up a credit large enough to cover those really hot and cold months with the energy produced from the solar panels! This home combines the charm of modern touches like a color palette of light grey, cream, and white tones, and luxury vinyl plank mixed with plush carpet flooring with a welcoming breakfast bar and an inviting and spacious back yard. The large flat screen tv in the garage conveys along with the installed storage hooks. This wonderful house is nestled in a quiet community setting and just waiting for you to bring it to life!
