Overview

This home sits on 2+ acres offering a quiet tranquil setting. Siding to woods with a creek and backing to you own private pond you have plenty of privacy. With an open and sunlit floor plan there are many possibilities to suit your living and furniture needs. Huge kitchen with induction cooktop, dual convection ovens, island and bar make for perfect entertaining. Master suite is oversized with 2 custom designed closets. The split floor plan has 3 additional bedrooms on the other side, one with its own private bath. Separate laundry room with sink. Outside you will find a large fenced in area with metal fencing, large trees and outdoor living possibilities with your own pond beyond that. This home has a built in generator and outdoor mosquito mist system making outdoor living more enjoyable and a 30X40 3 stall shop with electric, new driveway and an extensive new french drain system all around the house and shop.
