## Overview

Beautifully maintained 3 bedroom, 3 bathroom condo located near the end of a quiet, private lane. Enjoy the open concept living room with natural light provided courtesy of the skylights. The Asian walnut flooring in the living room offers warmth and style. With two decks on the property you can choose where to have breakfast or conversations over coffee! The den offers a cozy place to slip away to and hides a private computer room. The main bedroom opens to one of the decks and also features a walk in closet and en suite. The three season's room offers a refuge of tranquility in the middle of town. Nature surrounds the three season's porch letting whoever enters rest and recharge. There are two gas fireplaces, one on the main floor and one in the basement. The walk-out lower level opens out to a private patio and wooded area. Lots of storage throughout, with a large storage/work room in the basement. 3rd bedroom is non-conforming in the basement. Most appliances are approximately 5 years old. This one owner free-standing condo is ready to welcome you home!
