Overview

Very nice and well kept home that has 3 bd and 1 bath on the main level. It sits on a full unfinished basement that offers great space for more rooms of any type. It has a nice yard with an extra lot right beside it for a garage/shop! It has a nice size living room with a bay window overlooking the lot and deck which is on the side of the home. Next you enter the dining room where you have plenty of space for a big table for family dinners. The kitchen is a nice size working kitchen where you could have a breakfast table or even an island. The bathroom is next with the vanity separated from the tub/shower and toilet offering a lot of space. Utility room is at the back of the house and so is the entrance to the basement. Come take a look and make this your new Home! Call Mark Truitt.
