## Overview

This picturesque 20-acre parcel has everything on your private Idaho list. Stunning views, timber, prairie, privacy, and wildlife passing through! It borders government and corporate timber acreage. It has one build permit and ready for you to add your well, septic, and bring power from the neighbor down the road. Sellers will be providing an easement for your driveway prior to close. And can be sold with the adjacent 20 acres listed as Starview Lane Parcel 1, MLS #98921928. Also, there is a tower near with great service so there should be no need for special internet services. Please schedule viewing with a licensed real estate agent.
