Overview

This one level brick home sits on 2.25 acres on a private lake in a desirable area of Pulaski Co. The landscaping and acreage is absolutely beautiful. A must see for someone who needs very large rooms! Enjoy the lake view from the 22x13 sun-room. All your furniture should fit in the 25 x11 family room plus separate living room and dining room. Primary bathroom has a 2 person tiled shower and separate area with 2 sinks. There is a 3 car carport attached, plus a separate garage with a full electric door and workshop area. The carport has a pull-down attic staircase for storage and it is "standup room" the entire length. The brick work around the entire home is very appealing. So much concrete parking area for friends and family when they visit. (New air handler July 2024)
