Overview

This 1940s home was completely renovated five years ago. It is full of character and charm. It is situated on 2 acres with incredible 100+ year-old Oak trees. NO HOA! Bring your goats and chickens, your RV, and your Boat. The house was taken down to the studs during the renovation. The main level has two bedrooms and two full baths. The attic space was finished, creating two bedrooms and one full bath upstairs. Everything was replaced, including electrical, plumbing, HVAC, septic system and lines, roof, water heater, kitchen cabinets, appliances, all bathrooms, and lighting. This is a gorgeous home with tons of character and beautiful design finishes-natural hardwood floors throughout both levels of the house. The bathrooms are all tiled, and the master suite bath and shower is AMAZING. The 5th bedroom was converted into a laundry room, and WOW, you will love doing laundry. There is a 2nd washer and dryer hookup as well. The farm-fenced backyard has a sectioned area currently used for goats. There is a big shed, an old well house, and a smaller shed. The property line goes well beyond the fencing in the back. You MUST see this one!
