Overview

Here's a great opportunity to live in the Oak Knoll neighborhood, known for its numerous pathways in and around the golf course. This single level was brought down to the studs and completely remodeled in 2005. It offers a remarkably spacious kitchen with custom granite countertops, an oversized kitchen island and great views out towards Grizzly Peak. Enjoy the expansive living room with vaulted ceilings, beautiful hardwood floors and a lovely gas fireplace with a stone and wood surround. Easily access the large backyard patio from the great room through two wood paned doors. The backyard features mature trees and landscaping along with a newly remodeled storage/utility shed. The primary suite has a large walk-in closet, an ensuite bathroom with a shower and jetted tub. A glass slider opens to the outdoors from the primary suite. The attached 1.5 car garage features room for storage and the spacious driveway allows for additional parking. Come see what this home has to offer!
