Overview

Impressive end unit condo, close to town. Just entering into the Great Room with cathedral ceilings and skylight will show you that this condo is a cut above. A gas fireplace adds coziness, and the sliding glass door allows for a view of the nature that surrounds this condo and grants access to the back patio. The open kitchen offers granite countertops, a center island, upgraded cabinetry, stainless appliances, and more. Just off the kitchen is a large walk-in pantry. Also overlooking the back patio is the spacious Primary Bedroom Suite with a private bath and walk-in closet. Off the front foyer is a small hallway with an additional bedroom/study and full bath. Everything is on one floor, including the laundry room. Additional space in the lower level with an egress window is already plumbed for a bath, and can be finished if desired. This freshly painted condo is in move-in condition with newer carpet and window treatments and will be a showplace as you greet your family and friends. Taxes are currently non-homestead and will be reduced if the buyer is eligible and applies for the homestead exception.
